Discover the Variety of ECFE Classes and Activities Available to You and Your Child

Infant-Parent Classes

Bring your baby to class to sing songs and explore other activities designed to stimulate your baby's brain development. Meet other parents, and share joys and concerns. Parent education topics, led by a parent educator, may include feeding, sleeping, crying, parent-child relationships and more.

Home Visits

Call your local ECFE to schedule a visit in your home with a licensed early childhood teacher. Discuss your baby's development and ECFE class information.

New Parent Connection

Explore and learn ways to care for your newborn baby. (Offered at local hospitals.)

Infant Massage

Massage benefits both baby and parents by strengthening the parent-child relationship. Learn gentle massage techniques to help your baby relax, improve digestion and sleep better. (Offered at some ECFE locations.)
